ACKNOWLEDGEMENT

profoundly thank our **Chairman and trust members of Kanchi Krishna Educational Trust** for providing adequate facilities.

I would like to express my hearty thanks to our respectable Principal. In charge **Mr.T.Mohan Raj M.Tech**., for allowing us to have the extensive use of our colleges facilities to have precious advice regarding the project.

I extend our thanks to Associate Professor **Dr.B.Yuvaraj M.Tech.,Ph.D, Head of the Department Computer science and Engineering** for this Precious advice regarding the project.

I would like to express my deep and unbounded gratefulness to my project Guide **Mrs.V.Anitha M.E., Department of Computer Science and Engineering**, for his valuable guidance and encouragement throughout the project. He has been a constant source of inspiration and has provided the precious suggestion throughout this project.

I thank all facilities and supporting staff for the help they extended in completing this project. I also express my sincere thanks to our parents, and all my friends for their continuous support.

ABSTRACT

The **bank management system project** must answer or address the needs of every issue that happen in bank management. These issues could be lacking security in manual managing of bank accounts or to address the inefficient banking transactions online. These problems were just an example of a bank management system that should be answered.The bank management system project is a program that keeps track of a client's bank account. This project demonstrates the operation of a banking account system and covers the essential functions of bank management software. It develops a project for resolving a customer's financial applications in a banking environment to meet the needs of an end banking user by providing multiple ways to complete banking chores. Additionally, this project is to provide additional features to the user's workspace that are not available in a traditional banking project. The project's bank management system is built on cutting-edge technologies. This project's main goal is to create software for a bank account management system. This project was designed to make it simple and quick to complete previously impossible processes with manual systems which are now possible with this software.

TABLE OF CONTECT

CHAPTER NO	CHAPTER NAME	PAGE NO
	ABSRTACT	
	LIST OF ABBREVATION	
	LIST OF FIGURE	
1	**INTRODUCTION TO BANK MANAGEMENT SYSTEM**	
	1.1 INTRODUCTION	
	1.2 PROJECT OBJECTIVES	
	1.3 SCOPE OF THE PROJECT
